

**REIGNITE**

## 2<sup>nd</sup> Edition of Global Agriculture Conference

**May 21-22, 2021 Online Conference**

Reignite Innovative Conferences happy to announce to you all that **Agri-2020** was concluded successfully. Now we are taking great pleasure to invite academicians, professionals, researchers, and students to **2<sup>nd</sup> Edition of Global Agriculture Conference (Agri-2021)** to be held during **May 21-22, 2021**.

The early goal of agricultural research was simply better methods of producing food. As humans and agriculture progressed, research widened to control of diseases and pests, better cultivars, productive fields or animal rearing facilities, improvement of food crops, and basic biological understanding of plants and animals.

**Agri-2021**, mainly focuses on how to get better yields in the conditions of environmental changes by adopting new research methods. And we focused on how to save the farming which is a backbone of economy.
